

Edwin Sixtos Ruiz

Lafayette, IN | +1 (574) 535-4956 | esixtosr@proton.me | edwinsixtos.com | linkedin.com/in/edwin-sixtos-ruiz

EDUCATION

Purdue University

Bachelor of Science, Cybersecurity & Network Engineering; GPA: 3.3

West Lafayette, IN

Aug. 2023 – Dec. 2026

EXPERIENCE

Cybersecurity Analyst

Sinapsis.tech – Startup

Aug. 2025 – Present

Remote / Part-Time

- Help document security controls, evidence, and internal practices for ISO 27001-aligned work.
- Support policy and control documentation for access control, backups, network segmentation, and secure system administration.

ISO 27001 ISMS Project / Cybersecurity Intern

Sinapsis.tech – Startup

May 2025 – Aug. 2025

Remote

- Contributed to the initial ISO/IEC 27001:2022 ISMS buildout by creating policy drafts, risk documentation, and control mapping materials.
- Organized early GRC materials including risk register support, Statement of Applicability notes, awareness content, and audit evidence folders.

Teaching Assistant – System Administration

Purdue University – Polytechnic Institute

Jan. 2024 – Present

West Lafayette, IN

- Mentor students in Linux, Windows Server, Active Directory, Group Policy, virtualization, and enterprise systems administration labs.
- Support Nutanix HCI and virtualized lab environments while reinforcing troubleshooting, documentation, and security fundamentals.

IT / Network Technician – Summer Intern

Purdue University – Polytechnic Institute

Summers 2024 – 2026

West Lafayette, IN

- Installed and maintained classroom and lab network infrastructure, including Cat6/Cat6A cabling, keystone termination, switches, routers, and wireless access points.
- Configured and updated network equipment, servers, workstations, and lab systems supporting instructional, research, and administrative environments.

PROJECTS

ISO 27001 ISMS Documentation & Evidence Project

May 2025 – Present

- Created ISO 27001-aligned policy drafts, control notes, risk documentation, and evidence folders for a startup security program.
- Organized GRC materials around risk assessment, control mapping, security awareness, access control, backup planning, and audit readiness.

Security Monitoring & Infrastructure Evidence Lab – Wazuh/ELK

Jan. 2025 – Present

- Built a Wazuh/ELK lab with Linux, Windows Server, Active Directory, and virtualized endpoints to review system and security events.
- Use the lab to support security documentation, monitoring screenshots, network segmentation notes, and portfolio evidence.

TECHNICAL SKILLS

Governance & Risk: ISO 27001, Risk Assessment, Control Mapping, Policy Drafting, Security Awareness, Evidence Tracking, Audit Readiness

Security & Monitoring: Wazuh, ELK Stack, SIEM, Log Review, Windows Logon Events, Authentication Monitoring, Wireshark

Systems & Identity: Linux, Windows Server, Active Directory, Group Policy, Proxmox VE, Nutanix HCI, TrueNAS, ZFS

Networking: VLANs, pfSense, DNS/DHCP, Switches, Routers, Wireless APs, Cat6/Cat6A, Network Segmentation

CERTIFICATIONS

Google Cybersecurity Professional | CompTIA Security+ | Cisco CCNA Candidate
